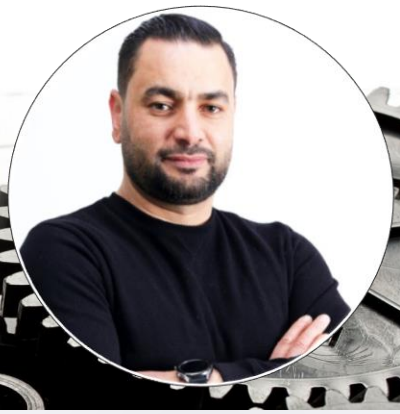
CHAKROUN Hamdi



CV

Personal information

- Date and place of birth: 07.08.1987, Tunisia
- Marital status : married, 2 children
- Nationality: Tunisian
- Address: Rue Citron, Ksar Hellal, Monastir, 5070, Tunisia

Professional experience

05/2023-actuellement

Technical Manager at SOTUFAB Plast

Tasks performed :

- Industrial maintenance (mechanical, electrical, hydraulic, automation): installation, maintenance and repair of injection, extrusion, blow-molding, packaging and recycling machines…
- Development and construction of devices, tools and machines: waste disposal, industrial elevators, design and repair of some molds, carts and devices for internal transport, skydomes, fire detection systems…

Professional skills acquired :

- Experience in industrial maintenance and plastics processing
- Knowledge of mechanical design and development, electrical design and automation programming.
- Software: Solidworks, XRELAIS, TIA PORTAL, ISPSoft, COMBIVIS, NodeRed…

04/2017-05/2023

Technical Manager at CIP (Comptoir Industriel de Plastique)

Tasks performed :

- Industrial maintenance (mechanical, electrical, hydraulic, automation): installation, maintenance and repair of injection, packaging and recycling machines…
- Development and construction of devices, tools and machines: scrambled plastic washing and drying machine, finished product packaging machine, industrial elevator, mold section, carts and devices for internal transport and storage, protection device, steel structure…

Professional skills acquired :

- Experience in industrial maintenance and plastics processing
- Knowledge of mechanical design and development, electrical design and automation programming.
- Software: Catia V5, Solidworks, XRELAIS, TIA PORTAL, ISPSoft, COMBIVIS

+216 98486092 hamdichakroon@gmail.com www.linkedin.com/in/hamdichakroon

02/2012-03/2017

Design engineer at CADYOU Entwicklung und Konstruktion

Tasks carried out: (subcontracting for German companies)

- Development and design of several special robotized welding devices for FAURECIA.
- Development and design of several special devices for ENKO STAUDINGER.
- Development and design of special machines for SIEMENS Energy Sector and BINDER AUTOMATION.

Professional skills acquired :

- Good experience in special machine development.

11/2011-01/2012

CAM engineer internship at AMM: micro mechanics workshops

Tasks performed and skills acquired :

- Machining of a 16-cavity plastic injection mold
- Knowledge of CAD and CAM (Solidworks, Mastercam) and handling of CNC machines (Hartford, Fanuc)...

08/2011-10/2011

Industrial maintenance engineer internship at ITS: Impression et Teinture de Sahel :

Tasks performed and skills acquired :

- Renovation study of a fabric dyeing machine
- Knowledge of PLC programming, electrical design and drive parameterization (KEB)...

Secondary activities: (outside working hours)

- Manufacture of 3 industrial load mounts.
- Import and installation of plastic processing machinery.
- Design of a clothespin and its mold (plastic injection).

Educational training

09/2008-07/2011

National Engineering Degree in Mechanical Engineering (Ranked among the top 10)

ENIM : Monastir National Engineering School

- Final year project at LEONI (4 months): Design and manufacture of a molding system for polyurethane resins.
- Technician internship at LEONI (1 month): Design and production of a test module for testing electrical harnesses.
- Internship at PLASTIC CREATION (1 month): Plastic mold maintenance.

09/2006-06/2008

National Engineering Entrance Exam (Passed with good score)

IPEIN: Institut préparatoire aux études d'ingénieurs de NABEUL

09/1993-06/2006

Baccalauréat technical section competition: (passed with distinction)

Secondary training

- Self-training: NodeRed, Xrelais, Tia Portal, Factory IO, ISPsoft, COMBIVIS...

Diapers

- French
- English
- Arabic

Leisure

- Travel, Robotics, Documentaries
